

Joseph Jankovic, MD

Joseph Jankovic, M.D. is Professor of Neurology, Distinguished Chair in Movement Disorders, and Founder and Director of the Parkinson's Disease Center and Movement Disorders Clinic (PDCMDC), Department of Neurology, Baylor College of Medicine, Houston, Texas. He has also served as the director of "Center of Excellence" for the Parkinson's Foundation, Huntington Disease Society of America, Tourette Association of America, and the Wilson Disease Association. Past president of the International Parkinson and Movement Disorder Society and of the International Neurotoxin Association, Dr. Jankovic has been recognized as an Honorary Member of the American Neurological Association, Australian Association of Neurologists, French Neurological Society, and the International Parkinson's Disease and Movement Disorders Society. Dr. Jankovic is the recipient of many awards including the American Academy of Neurology (AAN) Movement Disorders Research Award, Huntington's Disease Society of America Guthrie Family Humanitarian Award, Tourette Syndrome Association Lifetime Achievement Award, and Dystonia Medical Research Foundation Distinguished Service Award. An author of over 1,200 peer-reviewed articles, Dr. Jankovic has served as the principal investigator in hundreds of clinical trials and has conducted pioneering research on drugs for parkinsonian disorders and hyperkinetic movement disorders, including botulinum toxin and tetrabenazine. Dr. Jankovic is current or past member of many editorial boards and scientific advisory boards of national and international foundations, including Dystonia Medical Research Foundation, International Essential Tremor Foundation, Tourette Association of America, and has served on the executive scientific advisory board of the Michael J. Fox Foundation for Parkinson's Research. For further information visit www.jankovic.org.
